## Connecticut's REALTORS® Discuss Real Estate Issues With Their Legislators *Annual Realtors at the Capitol event.*

Hundreds of REALTORS® from across Connecticut met with legislators Thursday, April 3 and discussed a variety of issues including changes to the tax structure, flood/shoreline management & insurance, and other matters affecting property owners and the market.

"The issues affect property owners, they affect the market, and they affect the Connecticut's economy. Several hundred Realtors attended this year, and a good turnout of legislators made Realtors at the Capitol a great success. We had members and legislators from every corner of the state meeting." said CT REALTORS® President Debra Chamberlain, a REALTOR® with William Raveis in Mystic. "We were pleased to have Comptroller Lembo stop in as well."

REALTORS® have been visiting the Capitol to provide their perspective on legislation that affects the state's real estate market for thirty years
