

ATTENTION SENIORS!

After years of hard work, you may want to sell your house and use the money from the sale of your home for your retirement – Unfortunately, there are some elected officials who want to add an extra tax to take more of this money away from you.

The expanded sales TAX that makes it MORE DIFFICULT AND COSTLY to buy and sell a home IS SET BY LAW TO END on June 30, 2005.

But some ELECTED OFFICIALS are, once again, proposing to keep the unfair, regressive tax in place.

The expanded sales tax hurts seniors.

The tax is based on the sales price and disregards the equity value of the home.

The tax is not based on “profit”; in fact, it is levied even if the property is sold at a loss.

MAKE YOUR VOICE HEARD!

Help make home ownership more affordable. Call or e-mail your elected officials today or go to www.cga.ct.gov and urge them to remove the expanded home sales tax as promised.
